Services

V. Alexander & Co., Inc. by the NUMBERS

Freight Driven, Customer Focused.

Flying V's Air Operation

With 7 Gateways, we can handle all your air freight needs Nationwide

Traditional Air Freight – With tiers to adapt every demand:

- Expedited Service - Dedicated and most reliable.
- Standard Service - A perfect hybrid of reliability and cost-effectiveness.
- Deferred Service - Economical and lean.

Temp-Control

Move your cargo within a certain temperature range throughout all phases of the transportation plan.

Special Services

Next-Flight Out / AOG
Offers space on the soonest possible flight schedule to destination.

Charter

A tailored transportation plan that aligns a dedicated or party dedicated aircraft.

Hand-Carry / On-Board Courier

A full white glove service that has a representative carrying the shipment onboard.

Quick-Parcel

An economical service for your small package and parcel shipments.

Dangerous Goods

Whether it be Class 1 Explosives, Radioactive or another HazMat classification, our certified staff can ensure that your hazardous cargo is transported safely to destination.

Value Added Services

Specialty Packing & Crating

Our packing solutions range from tailored ISPM-15 compliant wood crates to simply reinforcing your existing shipment with bands, shrink-wrap, etc.

Warehousing & Consolidating

With seven different warehouses across the US we are able to economically store, segregate and consolidate your short term and long terms projects.

Global Network

Our long history has helped us build a Global infrastructure that allows us to service 180+ countries with expertise.

ITAR / BIS Controlled Shipments

Through our decades of handling government related and ITAR controlled accounts, our operation is well trained on the handling and processing of cargo shipping on an export license.

Our Philosophy

Export & Import processes to meet the corporate compliance requirements for accurate documentation, a broad range of carriers, flexibility and knowledge to adjust to your local business model.

Flexibility is the cornerstone of our service.

Web based Tools to do the job quickly and efficiently.

People who take care of your business.

Visibility of all aspects of the shipment from freight movement down to the billing. All the information you need available when you want it.

Reporting to track and assess key performance indicators for internal performance, carrier performance and within the supply chain. Continuous improvement in processes based on key performance indicators.

Improving processes and creating value are the cornerstone of our business. We have grown our expertise in managing the Global Supply Chain of our customers by managing the overall cost of doing business with measurements, visibility, integrity, and innovation.
