# Indis Group

## What is Indis?

We are an international distribution group comprised of over 20 chemical distributors, in over 20 different countries, who leverage our combined strengths and capabilities to provide unmatched global solutions for our customers in our respective markets. Given our broad global presence we stand ready to meet the needs of our customers and suppliers, both large and small, in all corners of the globe.

## Advantages

- Members Worldwide - beneficial for the local customers of each of the associates
- Single point of contact offering the majority of raw materials
- Extensive range of products and services
- Unparalleled level of flexibility and professional service
- Access to a large resource of market information from around the world
- Global product sourcing and marketing opportunities
- Being part of a network of established and trusted international companies

## Members Worldwide

We are looking for members who are interested in finding new and innovative ways of expanding their companies on a global scale, and challenging the way business has traditionally been done.

If you feel that your company might fit into the INDIS way of doing business and there are currently no members in your country, come and join us. For more information email: [info@indisgroup.com](mailto:info@indisgroup.com)
